WHOLESALE
CATALOGUE
OF
AMERICAN TREES, SHRUBS,
PLANTS, AND SEEDS,

CULTIVATED AND FOR SALE AT THE

LINNÆAN BOTANIC GARDEN AND NURSERIES,

NEAR NEW-YORK.

WILLIAM PRINCE, *Proprietor,*

C. M. of the Linnæan Society of Paris, of the Horticultural Society of London, and of the Imperial Society of the Georgofili at Florence, &c. &c.

☞ *The Botanic Names generally are according to Pursh's Flora of North-America, and others to Michaux, Nuttall, Torrey, Elliott, Hortus-Britannicus, &c.*

TWENTY-FOURTH EDITION.

NEW-YORK:

PRINTED BY T. AND J. SWORDS,

No. 127 Broadway, corner of Cedar-street, first door north of the City Hotel.

1827.

N. B. Distinct Catalogues and Publications relative to this Establishment may be obtained of the different Agents, or by application to the Proprietor, as follow.

The four first mentioned being distributed *gratis*.

No. 1. Fruit and Hardy Ornamental Trees, Shrubs, and Plants.

No. 2. Bulbous and Tuberous rooted Plants.

No. 3. Green-House Trees, Shrubs, and Plants.

No. 4. American Indigenous Trees, Shrubs, and Plants.

No. 5. A Short Treatise on the Culture of Trees and Plants generally. *Price 50 cents.*

Nos. 1, 3, and 4, ready for delivery. Nos. 2 and 5 in the press, and will be published speedily.

Mr. Prince expects also to be shortly able to announce the publication of the first part of his work on American Horticulture, which will be issued in four parts.

AGENTS IN EUROPE,

Of whom Catalogues may be obtained, and who will forward orders to the Proprietor.

Thomas Aspinwall, Esq., American Consul, London.
James Maury, Esq., American Consul, Liverpool.
David Walker, Esq., American Consul, Glasgow.
Thomas Wilson, Esq., American Consul, Dublin.
Isaac Cox Barnet, Esq., American Consul, Paris.
Professor Bosc, Jardin du Roi, Paris.
Messrs. Eyries, frères, Havre.
Joshua Dodge, Esq., American Consul, Marseilles.
Messrs. William Hesses & Goetze, Hamburg.
John Cuthbert, Esq., American Consul, Hamburg.
John W. Parker, Esq., American Consul, Amsterdam.
Abraham P. Gibson, Esq., American Consul, St. Petersburg.
George Moore, Esq., American Consul, Trieste.
Alexander Burton, Esq., American Consul, Cadiz.
Israel P. Hutchinson, Esq., American Consul, Lisbon.

At other places the Consuls of the United States will forward any communications for the Proprietor.

ABBREVIATIONS AND REFERENCES.

Ph.—Pursh's Flora Americæ Septentrionalis.
Nut.—Nuttall's Genera of American Plants, &c.
Tor.—Torrey's Flora of the Northern and Middle States.
Big.—Bigelow's Flora Bostoniensis, &c.
Ell.—Elliott's Flora of South-Carolina and Georgia.
Le Conte.—In various publications.
H. B.—Sweet's Hortus Britannicus.
Geo.—Georgia.
Mex.—Mexico.

* denotes Annuals.
$ ——— Dollars.
Cts. —— Cents.
Dol. —— Dollar.
Dols. —— Dollars.

VALUE OF MONEY.

$ 1, or dollar, contains 100 *cents*, and is equal to *four shillings and six-pence* (British) sterling; or to *five francs and thirty centimes* of France; or to *two and a half guilders* of Holland.

22 cents make *one shilling* sterling.

19 cents are equal to *one franc* of France.

40 cents are equal to *one Dutch guilder*.

$ 1 is equal to *one dollar and nine groschen* Saxon currency, or to *one and a half dollars* Prussian currency.

MEASURES AND WEIGHTS.

A bushel of seeds contains 32 *quarts*, or 8 *gallons*.

A quart is the quarter of a gallon.

A lb. is nearly the same as the lb. of Europe.

A Prussian scheffel is equal to $1\frac{1}{3}$ bushels.

N. B. Where no prices are stated in the Catalogue for seeds, packages can be put up at 50 cents each, or upwards.

NORTH AMERICAN INDIGENOUS

TREES AND SHRUBS.

N. B. Those species to which the word *vera* is attached, have been hitherto almost invariably sent to Europe with inaccuracy, for the *Juglans sulcata*, they have been sent a variety of J. alba vel squamosa; for *Fagus ferruginea*, the sylvatica; for *Asclepias variegata*, a variety of syriaca; for *Juglans aquatica*, a variety of Juglans amara; for *Quercus laurifolia*, a variety of virens; for *Vitis rotundifolia*, *Xylosteum solonis* and *ciliatum*, and some species of *Ilex*, other species and varieties; for *Hibiscus virginicus* a variety of palustris; for *Baptisia alba*, the cerulea *v. alba*; for *Miegia macrosperma*, the Arundo donax; and, in the same manner, with many other species; and some species which are now enumerated in the European catalogues, will be found on examination not to have yet found their way to Europe.

AMERICAN FRUIT TREES.

APPLES. *Pommiers. Pyrus malus.* 37 *Cents each.*

TABLE FRUIT.

C denotes those which have proved good for Cider also.
P ——— those which are also proper for preserving or cooking.

1 Yellow harvest *ripe in* July.
2 Sine qua non, *very fine* do
4 Red juneating do
7 American summer queen Aug.
11 Marygold do
12 Red and green sweeting, *weighs a* lb. Aug. & Sept.
20 Maiden's blush P Sept.
22 Rambo, *or Romanite,* P Sept. & Oc.
27 Fall pippin, *weighs a* lb. Nov.
28 Corlies' sweeting, C Sept. to Dec.
29 Large white sweeting do
33 American nonpareil, *doctor apple* Oct. & Nov.
34 Monstrous bellflower do
36 Catline, *of Maryland,* C Oc. to Jan.
37 Michael Henry pippin D. to Feb.
38 Newtown Spitzenburgh O. to Jan.
40 Monstrous pippin, *ox apple, or New-York gloria mundi, has weighed 27 to 35 oz.* P do
41 Newark king do
42 Morgan Oct. to Feb.
43 American wine, C P do
44 Cumberland spice Nov. to Feb.
45 Bullock's pippin, *or sheep nose,* C P do
46 Pennock's winter do
49 Long-Island russet Nov. to Mar
51 Federal pearmain do
54 Winter sweet pearmain do
56 Belden, *or red cheek* do
57 Fameuse, *or de niege* do
58 Red Baldwin pippin do
59 Red jellyflower do
61 Bourassa do
62 Surprise, *yellow outside, and red to the core within* do
64 Seek-no-farther do
67 Æsopus Spitzenburgh, *thought by many inferior to none* do
68 Flushing Spitzenburgh do
70 Red winter sweeting *r.* Nov. to Mar.
71 Yellow bellflower do

74 Dickskill do
75 Swaar do
76 Craam do
77 Pomme gris, *grey apple of Canada* do
78 Wood's greening do
81 Winter queening, *of Ohio* do
82 Lady's finger Nov. to April.
84 Rhode-Island greening, *weighs a* lb. do
85 Jersey greening Nov. to June.
87 Priestley, P Dec. to April.
88 Moore's sweeting Dec. to June.
89 Green everlasting do
90 Red everlasting do
91 Boston russeting, *Roxbury russeting* do

N. B. *These four last apples have been preserved sound above a year*

92 Green Newtown pippin, C do
93 Yellow Newtown pippin, C P do
94 Carthouse, *or Gilpin,* C Jan. to May
95 Redling do
96 Tewksbury blush Jan. to July.
97 Newark yellow, *or French pippin* Nov. to Jan.
98 Shippen's russeting do
99 Roman stem Dec. to Feb.
100 Buck's county, *or Salisbury cider,* C do
101 American pippin, C Jan. to Ap.
102 Chandler do
147 Canada reinette do
152 American violet do
157 Grand sachem do
175 Early sweet redstreak Aug.

176 Scales large summer redstreak } *r. in* Aug
178 Trenton early redstreak Sept
179 Large spiced crab, P do
180 Cathead Oct. & Nov
181 Pumpkin sweeting do
182 Taylor's, *or Freehold redstreak* do
183 Carroll's striped do
184 Barnes' fancy do
185 Sweet and sour do
186 New-England seek-no-farther } Nov. to Jan.
187 Brownite do
188 White doctor do
189 Red sweet pippin do
190 American quince *r.* Nov. to Jan
191 Golden lady Dec. to Feb
192 Woolman's long pippin do
193 Dumpling do
194 Monmouth large green do
195 American black *r.* Dec. to Feb.
196 Coate's red winter do
197 Aunt's large red do
198 Orange do
199 Mansfield large red Jan. to Ap.
200 Long green pippin do
201 Warren do
202 Lob do
203 Vout do
204 Ninepartner's little russet, *will keep above a year*
205 Poughkeepsie russeting
206 Porter's favourite
209 East-Jersey redstreak
210 Maryland grey redstreak
211 Dutchess county redstreak
212 Virginia redstreak
213 Belt's Berton crab
214 Williams' favourite
215 Fall sopswine

CIDER APPLES.

T denotes those that are good table fruit also.

P —— those that are best for preserving.

107 Hughes' Virginia crab } *r.* Oct. & Nov.
108 Gloucester white, *of Virginia*, T do
111 Roane's white crab Oct. to Jan.
114 Campfield, *or Newark sweeting, ripe from* Oct. to Jan.
116 Cooper's russeting, T P } Nov. to Mar.
117 Harrison's Newark do

APPLES *for Preserves or Ornament.*

169 Prince's new double flowering *with small green fruit*, 1 dol.
163 American green crab
164 Fort Magee do. 1 dol.
167 Prince's new double flowering, *with yellow fruit*, 1 dol.
168 Prince's new double flowering, *with large green fruit*, 1 dol.

PEARS. *Poiriers. Pyrus communis.* 37 *Cents each.*

7 Sugartop, *or harvest* *r.* July.
27 Peach pear Sept.
40 Prince's sugar do
41 —— early virgalieu do
46 Rockland Oct. to Dec.
47 Buffum's do
48 Washington Sept. & Oct
50 Pope's scarlet major do
51 Pope's Quaker do
59 Prince's late virgalieu *r.* Oct.
61 Rushmore's bon chretien do
63 Boston epargne do
68 Newtown virgalieu Nov. to Jan.
72 Prince's St. Germain Nov. to Feb.
88 Flushing grey russet Dec. to Jan.
194 Bartlet
204 Somerindyke

CHERRIES. *Cerices. Prunus cerasus.* 50 *Cents each.*

3 Richmond, *or early Kentish* } *r. in* May & June.
9 American heart, *or large white heart* June.
12 China heart do
23 American amber do
28 Prince's duke do
32 Yellow honey *ripe in* May&June.
38 Elkhorn do
39 Remington white heart July&Aug.
40 Forman's late July
44 Plumstone morello do
54 Norton's encysted, *curious* do
77 Downer's favourite do

PLUMS. *Pruniers. Prunus domestica.* 50 *Cents each.*

† denotes those of large size.
‡ ——— those of superior flavour.
P ——— those for preserves.

2 †‡American cherry, *myrobalan, or cerise* *ripe in* July.
3 Red chicasaw do
4 Yellow do. do
5 Early purple Aug.
6 American red, P do
7 Ditto yellow, P do
9 Wetherill's sweet do
12 ‡Burlington red do
16 †‡Cooper's large do
23 †‡Washington, *or Bolmer, weighs near* 4 *oz.* 1 dol. do
24 †‡Prince's gage, *new, very large*, 1 dol. do
27 ‡Red gage do
29 ‡White gage *ripe in* Aug.
31 †‡Smith's Orleans do
32 †‡Huling's superb, *weighs near* 4 *oz.* 1 dol. Sept.
34 ‡American yellow gage do
36 Peter's large yellow Aug. & Sept.
38 Lewistown egg Sept.
39 ‡Huling's fine blue Aug.
40 Elfrey do
41 Tomlinson's Charlotte do
45 Miller's Spanish Sept.
52 ‡Yellow honey, *new*, 1 dol. Aug.
53 Prince's blue primordian, *earliest of all*, 1 dol. July.

PEACHES. *Pêchers. Amygdalus persica.* 37 *Cents each.*

‡ denotes those of superior flavour.
† ——— those of remarkable size.
M ——— those which are melting.
C ——— clingstones or pavies.

2 ‡Yellow nutmeg *ripe in* July.
3 ‡Red nutmeg do
4 ‡White nutmeg do
6 ‡Sweet water, *or large American nutmeg*, M Aug.
7 ‡Red rareripe do
8 ‡White rareripe do
9 Yellow rareripe, M do
11 Early red, C do
12 Early white, C *ripe in* Aug.
13 Jacques' new yellow rareripe, M do
14 New white rareripe, M do
15 Lemon freestone do
17 Freestone heath, M do
18 Gold and purple, C do
25 Morris red rareripe Sept.
26 Ditto white ditto do

27 Oldmixon freestone *ripe in* Sept
28 Oldmixon, C do
33 Cut-leaved, *or serrated* do
34 ‡†Columbia do
35 Washington, C do
36 ‡†Red pine apple, C do
37 ‡†Kennedy's Carolina, *early lemon*, C do
39 ‡†Red cheek mélécoton, M do
42 ‡Orange peach, M do
44 †President do
45 †Congress, C do
48 White blossom do
52 Western Newington, C do
53 White pine apple do
54 Hyslops, C do
59 †Large red October, C Oct.
60 Long red, C do
66 Sargent's rareripe, M Aug
67 Late red ditto, M Sept
68 Kenrick's heath do
70 Heath, C *very superior*, } Oct. & Nov.
71 Freestone winter *r.* Sept. & Oct.
85 Haines' early red
86 Coate's early yellow
87 Diana, C
88 Taylor's large yellow freestone
89 Late freestone heath
90 Large yellow freestone
91 Latest yellow freestone
92 Nagle's favourite
93 Elizabethtown fine
94 Mammoth
95 Yellow pine apple
96 New natural
97 Nonpareil, *very large*

99 Rodman's late yellow
100 Rodman's red, C
101 Favourite red freestone
102 Binney's red, C
103 Cole's red
104 Red Catharine

In enumerating the foregoing fruits I have only included those of acknowledged merit, and in addition thereto, there are various American varieties of Apricots, Nectarines, Raspberries, Strawberries, Persimmons, Papaws, Blackberries, Cranberries, Whortleberries, Walnuts, Chesnuts, Hazlenuts, Grapes, &c. &c. &c.

ADDENDE.

1 Aspidium dilatatum, (*Cryptogamiæ*)
2 Carex sylvatica, (*Graminæ*)
3 *Cassia tora
4 Elephantopus tomentosus
5 Gerardia setacea
6 Graminæ, 3 *species? from Illinois*
7 Osmunda interrupta, (*Cryptogamiæ*)
8 Poa elongata, *Tor.*
9 *Rhexia purpurea
10 Viola crenata
11 Zizadenus glaberrimus

CIRCULAR.

THE Proprietor, in offering to the public this *Catalogue of the American Trees, Shrubs, Plants, and Seeds* contained in his establishment—and which are annually exported to the different quarters of the world—avails himself also of the present opportunity to tender his acknowledgements to those gentlemen who have politely contributed to his establishment, from various countries, and to express his desire to continue, with renewed ardour, his intercourse with all those who have hitherto honoured him with their correspondence; and to receive also the communications of others who may wish to cultivate an intercourse with America in any way connected with Botany or Horticulture. He particularly wishes to extend his intercourse with all the principal Nurseries of Europe, and elsewhere, on the most liberal principles, and in a manner mutually beneficial and advantageous. Comprising, as this Garden does, an extent of more than thirty acres *compactly filled*, and being the source whence large supplies are distributed through its Agents, &c. to every part of the United States, and to foreign countries; and its collection being surpassed, or even equalled, but by few of those which have received in other countries the patronage of royalty, this establishment may be justly considered as a *National Institution*.

Those persons who may desire American Trees, Plants, or Seeds, will find the annexed Catalogue by far the most complete, and extensive of its kind, that has ever been offered to the world. Several hundred species which it contains are of great rarity, and are found in no other collection in America, nor are yet in those of Europe. Orders for any of the articles enumerated will be executed at the prices annexed to them—where no prices are stated for Seeds, they will be regulated by the plenty or scarcity of the season; but many species of Seeds are so rare that they can seldom be obtained. In such cases it is recommended that the Proprietor be authorized to send Plants, when their Seeds cannot be procured, as this course will prevent disappointments.

The Trees, Plants, and Seeds will be arranged and packed with the greatest care and attention—the long course of years in which the Proprietor has pursued this business having furnished him with ample knowledge on this point, so necessary to insure success—and the Seeds will all be fresh and the growth of the year they are sent. The magnitude of this establishment (it being so much greater than any other in America, together with its extensive connections in every part of North and South America, and the West Indies) gives it decided advantages in the execution of any demands for American Seeds and Plants. In the United States alone, the Proprietor has more than seventy Agencies established in the various Cities and Towns in every section of the country, which serve as well for the

sale of the various productions of this Garden, as for the acquisition of such Seeds and Plants as are natural to their respective localities. In addition to these advantages, New-York is the principal seaport from which ships are despatched to all parts of the world, and its vessels are also celebrated for their safety and speedy passages. Its harbour being also contiguous to the Ocean, is open at all seasons of the year, while the neighbouring ports are frequently closed for several months by ice.

The freight from New-York to foreign countries is also much cheaper than from other ports in the United States, and arrangements have been made to send all packages at the lowest freight.

The Proprietor has been in the habit of annually supplying large quantities of Seeds for the different Governments of Europe to plant the National Forests, and for different Botanic Gardens, &c.; and he is prepared to supply similar orders to any extent. In addition to those enumerated in the Catalogue, the Proprietor has received a great number of new species of Seeds, from some of which he will be enabled to supply Plants in the fall of 1827—and, in fact, the extension of the interests of the establishment, through its numerous Agents in those sections of country hitherto least explored, promise a more auspicious result, from the rich field of science which America presents, than has been displayed from the same quarter for a lapse of years; and in the attainment of objects so desirable, neither exertion nor expense are spared.

It will be perceived that the prices are in many cases *much reduced*—in fact, they are now as low as can be afforded, *to do justice to the purchasers in their quality*, for in Seeds there is an immense difference between those that are preserved with a particular regard to their vegetative powers, and the large quantities which are sent without any regard to that point. It should, however, be understood, that some Seeds never vegetate till the second year, and that some others with difficulty preserve their vegetative powers. The best period for the shipment of Plants is the months of October, November, December, and March—and for Seeds, November, December, and January. It is preferable, however, that the orders be received at a much earlier date, which will insure more complete execution.

The Catalogue annexed is extracted from the *large Catalogue*, which is too bulky for general distribution, and forms a pamphlet of above 170 pages, but those who desire it can have the other parts forwarded to them, consisting of those enumerated at the commencement of this Catalogue. The whole can be sent put up as *printed sheets*, which will make the postage but trifling. The collection of Fruits of all the various kinds is very extensive and select, and will be found particularly noticed in Loudon's Gardeners' Magazine, in No. v. p. 90, in No. vii. pp. 345 and 350, and elsewhere; and a large number of which are also enumerated in the Catalogue recently published by the Horticultural Society of London. The Proprietor prefers that all orders should be sent *direct to him*, instead of their being sent, as is sometimes the case, through other establishments of this country, who apply to him to execute them, and such a course will be found more *economical* and *advantageous* to those who send orders.

It will be gratifying to the Proprietor if those persons who are strangers to him will, when sending their orders, authorize the payments to be made by some house in London, Liverpool, Paris, or Havre, or in some city of the United States, or tender him a suitable reference—but with respectable Nurseries, Botanists, &c. he is not disposed to create difficulties on this point, but will endeavour to meet their convenience by drawing on them direct, where the above arrangements cannot well be made.

Insurance will be made on shipments when desired; and where not done, the packages are of course, *after shipment, at the risk of the persons ordering them.*

Such persons as may please to present to the establishment collections of rare Seeds and Plants, will receive a prompt reciprocity of favours; and Seeds of the Cape of Good-Hope, Botany-Bay, and New-Holland, will be particularly acceptable. With all his Botanic correspondents, and with amateurs of the science throughout the world, the Proprietor solicits a frequent correspondence, and requests from them every information respecting new discoveries, and the diversified interests of Botany and Horticulture. Every such favour will be cheerfully reciprocated; and as activity is the very essence of improvement, such intercourse will be conducted with that promptitude and despatch which characterize the general transactions of the establishment. It is also particularly requested, that all orders for Trees, Plants, and Seeds, should be forwarded as early in the season as possible.

WILLIAM PRINCE.
